

Tough guys: Gwen's sons mimicked Blake's animal footprint and barbed-wire tattoo.

# Gwen's Kids GOING COUNTRY

Gigi & Zayn

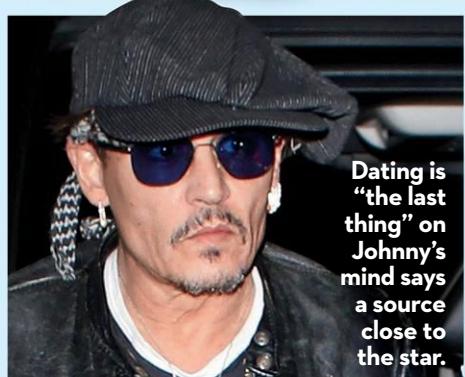

## ON THE ROCKS

Zayn Malik has come out of his shell... only to land in hot water with **Gigi Hadid**. According to an insider, after shooting the music video for his song "Still Got Time" with rapper **PartyNextDoor**, the singer, 24, threw a rager "until five in the morning" at his London pad. "There was a lot of drinking and he even hired strippers. It got pretty wild." One conspicuous absentee? Zayn's 22-year-old model girlfriend. "Zayn had promised Gigi that he was done with the party scene, so when she found out she was livid," reveals the insider. "He swore that he didn't fool around with anyone, but she's not sure what to believe. She's threatening to end things if he doesn't clean up his act."

Look who's getting the cold shoulder: Zayn's partying "is pushing Gigi away," says an insider.

Just call them the new Beverly Hillbillies: Though **Gwen Stefani** is a Cali girl at heart, a source says that the star, 47, has agreed to live with her three sons — **Kingston**, 12, **Zuma**, 8, and **Apollo**, 3 — at her beau **Blake Shelton**'s Oklahoma ranch for a big chunk of the summer! "Blake wants to show the boys how to get their hands dirty," says the source. "He can't wait to immerse them in a new way of life so they learn you can be just as happy in the middle of nowhere as in Beverly Hills — if not happier." Blake, 40, plans to teach the boys how to fish, ride horses and feed his chickens. "Gwen was hesitant at first about spending so much time in the country, but she knows that the boys have a blast every time they visit," says the source. "She's hoping that their time there will be a real education for them." Sounds like the perfect sweet escape!

Dating is "the last thing" on Johnny's mind says a source close to the star.

## Johnny FLYING SOLO

He may be single, but **Johnny Depp** isn't ready to mingle. A family friend of the *Pirates of the Caribbean* star, 53, says that his messy (and expensive) split from **Amber Heard** has left him so bitter about women that he now has zero interest in stepping back into the dating game. "The divorce really took a toll on him — both physically and emotionally," shares the friend. "He doesn't want to set himself up for that kind of agony again." In fact, even though his inner circle means well, he's asked them to stop trying to fix him up — at least for the time being. Says the pal: "Right now, Johnny just wants to be on his own and is content focusing on his career and his kids."
